Superior Fruits and Ornamentals
For Orchard, Garden and Home Plantings

A Personal Message from the Harrison Brothers

Orchardists Established 1884
Nurserymen

*Growers of Quality Fruit and Ornamental Nursery Products*

Harrisons' Nurseries, Inc.

Berlin, Maryland October 15, 1936

Dear Friends:

We indeed appreciate the thousands of orders that our friends and customers sent us last season, and it is with the utmost pleasure we send you all this condensed circular which is full of worth while fruits and ornamentals for orchards, gardens and home plantings.

The confidence that you placed in us is fully appreciated and we know that you will be well pleased with the fine assortment of Quality Fruits and Ornamentals that we have growing to fill your orders with this season.

HARRISONS' Fruit Trees and Small Fruits are true to name, earlier to bear, and yield larger crops because they are scientifically propagated from SUPER SELECTED STRAINS. Likewise the parent plants used for propagating our Ornamentals are of the finest types for their respective varieties.

Now is the time to check up on the missing trees in your orchard or plan the new one. Make a survey of your yard and determine what you need in the way of shade trees, evergreens, hedges, shrubs, flowers, etc. With prices of all things going up, we believe that it would be wise to purchase your stock now.

Again we are emphasizing the greatest values at a low price. By producing in large quantities we are prepared to give you better stock for less money, and remember, Harrisons' Trees, Plants and Shrubs are grown, grafted and shipped by experts with a lifetime experience in nursery work.

No matter what you pay for your trees, plants and shrubs they are a distinct loss if they fail to give you satisfaction, and it is with this in mind, knowing well that our stock will give you entire satisfaction, that we ask you to send us your order today.

Yours for a more fruitful and beautiful America.

Sincerely yours,

HARRISON'S NURSERIES, Inc.

Gee/DSC

Profits In Fruit Growing

Growers, if you are not making money something is wrong. Other growers are making money. Why not you? And if you are not, likewise if you will produce something that the people want and are willing to pay for. What if you are growing your own and your land on crops that pay you $10.00 to lease them nothing per acre? Grow a few annuals, fruits and your field crops.

Fruit will give you a bigger dollar return than any other crop you can grow. You'll make more actual money from an acre of fruit than you will from 10 to 20 acres of ordinary farm crops. Show us a profit farmer and we will show you a fruit farmer.

The reason for this is plain and simple—there is a big surplus of ordinary farm crops, while on the other hand there is developing a shortage of fruits.

There are no secrets involved in making big money with fruits. Plant our selected-strain varieties and success is assured. Thousand of other farmers with land like yours and with the same training and ability have paid for their farms and become independent growing fruit.

Improve the Appearance Of Your Home Grounds

The vogue for beauty, outside the home, as well as within, is upon us—and this new vogue finds its most charming expression in the modern outdoor living room.

This novel fashion results from more than the public's consciousness of "back-yard" barrenness. It is the home-owner's own solution to the problem of how to get the most value out of his property and the most enjoyment out of living. The charm of evergreens, flowering plants and trees, tastefully arranged to create a veritable living room outdoors is irresistible; and the prospect of planting a place outdoors which is attractive, livable and comfortable—where the family can find countless hours of enjoyable pleasure.

More For Your Money

We wish it were possible that everyone who is interested in planting fruits or ornaments could come to Berlin and personally look over the hundreds of acres of nursery stock which we have growing here. Thousands of visitors acclaim admiration at the manner in which our stock is grown. Our vast commercial orchards of the finest strains of fruits obtainable, which were secured from all parts of the world, offer us a storehouse of information and furnish us the best possible mother trees. This assures our trees not only of being true to name but enables them to come into bearing one to three years sooner than trees propagated from scion blocks or from nursery rows where it has been several generations since the variety to be propagated has fruited. Remember, an orchard is a long time investment and the trees must make good or the whole venture is a financial loss.

Volume production along with favorable climatic and soil conditions enable us to reduce our selling price to the very minimum and yet grow trees, plants and shrubs that are of the very finest quality.

It may be possible to buy a tree that looks as good but it's the percentage of the tree that determines in a large way its fruitfulness and money-making possibilities after it is planted in your orchard.

Plant Now

Fall and early winter during the months of November and early December are recognized by the most experienced planters as one of the best times for planting most varieties of fruit and ornamental nursery stock. By planting at this time you can be sure that the trees, plants and shrubs that you buy are in ripe condition for transplanting. If they are dug before the sap flow normally stops there is a possibility that much damage will be done to the plants in transplanting.

In states bordering and just south of the Mason-Dixon line practically all items can be planted anytime during the winter that the ground is free from frost.

Do not let a few light frosts and freezes delay your planting this year.

Fall and winter planted stock has one great advantage over spring planted stock in that it will start to grow earlier in the spring. It is a well known fact that the roots on all trees, plants and shrubs grow during the winter time and get well established before the late spring droughts.

It is a mistaken idea among many planters that nursery stock should be planted early in the fall. However, this is entirely wrong as it is necessary to let the stock be fully matured before it can be safely planted. After a few cold periods and below the ground is frozen it is the ideal time for planting deciduous stock.

OUR LARGE ORGANIZATION OF TRAINED NURSERYMEN ARE PREPARED TO GIVE YOU ORDER, LARGE OR SMALL, PROMPT, EFFICIENT SERVICE.

HARRISONS' NURSERIES, Inc., BERLIN, MARYLAND
HARRISON'S PEACHES

Plant Peaches for Large Profits

RIO OSO GEM

A TREMENDOUS MONEY MAKER FOR GROWERS...

A new, early season, large, firm, red, freestone peach, made famous as the result of the research of the late Dr. H. L. R. Heath of Virginia, who at one time was the "Peach King" of America. Provides for early, continuous pickings, from May to September. Has a firm, plump, red skin, high flavor, firmness, and quality.

PRICES OF RIO OSO GEM: Only 25c per tree higher than standard varieties.

FLIEY

BEARS HUGE CROPS OF FANCY PEACHES...

Hampshire Gem is a small, white, freestone peach, of exceptionally fine flavor. It bears a heavy crop of large, firm, red, freestone fruit, which has a very attractive red blush.

PRICES OF HAMILTON GEM: Only 25c per tree higher than standard varieties.

HAMILTON GEM

WORLD'S LARGEST PEACH

A new, early season, large, firm, red, freestone peach, made famous as the result of the research of the late Dr. H. L. R. Heath of Virginia, who at one time was the "Peach King" of America. Provides for early, continuous pickings, from May to September. Has a firm, plump, red skin, high flavor, firmness, and quality.

PRICES OF HAMILTON GEM: Only 25c per tree higher than standard varieties.

GOLDEN JUBILEE

COMMERCIAL PEACH CHERRY FOR A CENTURY...

Commercial peach orchardists for a century have known the value of an early peach with high quality, fine flavor, yellow, freestone, attractive color, and firm texture, and eventually they have found it in the marvelous Golden Jubilee. This variety is a sensation of recent introduction of new varieties and is far better than any early variety of commercial importance which has been introduced for many years. It ripens about the same time as the best home grown peaches.

J. H. HALE

EXTRA LARGE SIZE

Yellow freestone extra large, beautiful red coloring, firm and of the highest quality and enticing flavor, J. H. Hale enjoys a reputation as the best tree to Elberta. ORIGINA STRAIN J. H. HALE

Our Hale are propagated directly from the original strain the variety being originated by the late J. H. Hale of South Gostebury, Connecticut and Fort Valley, Georgia, who at one time was the "Peach King" of America. There are many types and strains of J. H. Hale grown, but the only one worth of commercial importance is the extra large, round, highly colored peach. The strain named J. H. Hale along with Hale with cross-pollination.
HARRISONS' APPLES
True-to-Name—Earlier to Bear—Yield Greater Profits

STAYMAN WINESAP
Winter. Large size; bright red color; flesh yellow, not in the least mealy; plenty of juice; firm, tender, rich, sub-acid, aromatic, quality the best and finest. Splendid late keeper, but mellows for use in the fall. Tree a quick and large grower; bears young, often producing a barrel to a tree when five years old. Necessary to plant Grimes Golden along with Stayman Winesap for proper cross-pollination; bears every year; crops uniformly heavy. Stayman is now planted on nearly all the orchards in the leading apple districts. One of the most popular apples grown, and demand far exceeds the supply, always bringing highest prices on the large markets; also popular roadside market variety.

JONATHAN
Early fall. Medium to large; brilliant red, juicy, fine grained, tender, mild, sub-acid, and very highly flavored. Good keeper and an excellent shipper. Tree long lived, but comes into bearing very young and produces big crops every year. Popular bushel and box variety, demanding highest prices on account of its attractive red appearance and fine flavor.

LEADING ORCHARDISTS PREFER HARRISON GROWN FRUIT TREES

McINTOSH RED
A fall variety in New York, Michigan and New England States. An exceedingly valuable hardy, attractive apple; medium large size 100 percent red color when ripe. Flesh white, fine tender, juicy, sub-acid and refreshing, and generally considered as the highest and best flavored apple grown; splendid appearance, which sells it on sight. Demand always exceeds the supply of McIntosh Red and commands the highest prices of any apple on the leading American markets.

HARDY—VIGOROUS
Tree is exceedingly hardy, vigorous, a very prolific bearer, consistent bumper crop producer, a sure annual cropper. Comes into bearing at an early age.

RED YORKING
(U. S. Plant Patent No. 125)

THE GLORIFIED YORK IMPERIAL
The Red Yorking is a "bad sport," being a mutation of the famous York Imperial. This "bad sport" originated on a tree, grown with other York Imperial trees, in Harrisons' Nurseries and later sold to Mr. W. H. Allis- son, near Shippensburg, Pennsylvania, for use in planting a large orchard about twenty-five years ago.

EARLIER COLORING—MORE EXTRA FRUITY FRUIT
The "Red Yorking" is similar to its parent in size and shape but its chief distinction is that it has very much better red color, being mostly 100 percent bright red color. The Red Yorking takes on high red color from three to five weeks earlier in the fall than York Imperial, which is a distinct advantage in selling, as the earliness in season and high red color will command much higher prices.

HARRISONS' SUPER STRAIN APPLE TREES
Apple growing pays handsome profits, but in order to get these profits it is necessary to start with the best trees and the most desirable varieties. In our nurseries we have growing the finest apple trees that is possible to produce. Our apple trees are scientifically propagated from selected heavy bearing strain trees of variety desired. You have probably noticed how one tree of a variety yields more fruit than the same variety in the same orchard. We have selected our mother trees for propagation from among the best of thousands of trees in our own commercial orchards. Today we believe that we have more of the best strains of apples in our nursery than any other concern.

COMPLETE LIST OF VARIETIES

Summer Apples
Duchess (Duchess of Oldenburg)
Early Harvest
Early McIntosh
Loi (10c per tree extra)
Milton
Red Anantron

Ben Davis

Prices of Harrison Grown Apple Trees
(Except as otherwise noted)
1 to 5 ft. $0.30 $0.25
5 to 8 ft. $0.25 $0.22
8 to 10 ft. $0.22 $0.18
10 to 12 ft. $0.18 $0.15

HARRISONS' RED DELICIOUS
GRADES MORE EXTRA FANCY FRUIT
One of the newer varieties of apples that is being widely acclaimed by the planting public. It has all the fine qualities of the regular Delicious, with the exception that it colors up weeks earlier than the ordinary strain. It is considered to be the most beautiful of all apples and commands high prices on local and city markets.

The flavor is delicious, flesh crisp and juicy. Whether you wish to plant a thousand or if you have room for only one tree, Harrisons' Red Delicious will give full value.

A SUPERIOR RED STRAIN DELICIOUS
The Harrisons' Red Delicious is comparable, if not superior to any of the other several new strains of Delicious as introduced, such as Starking, Richmond Delicious, Shorwell Red Delicious and others.

SAVE MONEY—BUY FROM HARRISONS' RED ROME BEAUTY
An improved Rome Beauty, identical in vigor and production. Color of fruit much darker and solid red. Produces much higher percentage of fancy apples and also superior in quality than the ordinary strain of Rome Beauty. Red Rome Beauty is recommended for bearing at a very young age, producing bumper crops of large size apples. The tree being a vigorous, strong grower exceedingly hardy.

We strongly recommend your planting Harrisons' Superior Strain of Red Rome Beauty.

GRAINES GOLDEN
THE LEADING YELLOW APPLE
Skin golden yellow, flesh yellow, flavor rich and spicy. Grimes cannot be surpassed for cooking or table use. It makes no difference whether you are after a Strictly high class market grade or desire just a few trees for your 'orden, you should plant Grimes Golden.

Plant Evergreens for Year Around Beauty

ARBORVITAE

AMERICAN ARBORVITAE (Thuja occidentalis). The largest of our Arbovitae. Exact, pyramidal habit; bright green foliage, dense from ground up. Rapid growth.

CHINESE ARBORVITAE (Bosia orientalis). Rather stiff columnar habit, bright green foliage. Very attractive.

PYRAMIDAL EVERGREEN (Thuja occidentalis pyramidalis). Narrow, columnar shape, retains bright green coloring throughout the winter. Form of type of evergreen. Best quality of Arborvitae growth.

Prices of above Arborvitae: 15 to 18 in., 40c each; 1 to 5 ft., $1.00 each; 6 to 8 ft., $2.00 each; 9 to 12 ft., $3.00 each; 13 to 15 ft., $4.00 each.

ELWANGER'S OR TON THUMB ARBORVITAE (Thuja occidentalis elwangeriana). A low, broad pyramidal form of evergreen with slender branches and feathery foliage.

Prices of Elwangers and Compact Arborvitae: 12 to 15 in., 40c each; 15 to 18 in., 55c each; 18 to 21 in., 75c each; 21 to 24 in., $1.10 each; 2 to 5 ft., $1.50 each.

CEDARS

INDIAN CEDAR (Cedrus deodara). Featherly, blue-green foliage, drooping, drooping branches, tall growing, 1 1/2 to 2 ft., $1.00 each; 5 to 6 ft., $2.50 each; 7 to 8 ft., $4.50 each.

JAPANESE CEDAR (Cryptomeria japonica lobata). A very picturesque looking evergreen; grows tall and narrow and is very rapid growing. Everyone who sees this variety is very enthusiastic about it. 2 to 3 ft., $2.50 each; 3 to 4 ft., $3.50 each; 4 to 5 ft., $4.50 each; 5 to 6 ft., $5.50 each.

JUNIPERS

ANDORRA JUNIPER. Low spreading type, purple bronze color during winter.

COLDEN SPREADING JUNIPER. Spreading type, bright green foliage.

PITTEN JUNIPER. Most popular spreading evergreen.

SAVIN JUNIPER. Spreading, very shaped growth. One of the most attractive spreading evergreens.

Prices of above Juniper: 15 to 18 in., spread, $1.00 each; 2 to 5 ft., spread, $1.50 each.

IRISH JUNIPER. Forms a narrow and dense column, compact, blue-green foliage. Most attractive when planted around the foundation of a home, at corners and entrances. Widely used in formal gardens.

SWEDISH JUNIPER. Tall, columnar habit, dense, fairly broad foliage, drooping tips.

Prices of Irish and Swedish Junipers: 1 to 1 1/2 ft., 35c each; 1 1/2 to 2 ft., 50c each; 2 to 3 ft., 75c each; 3 to 4 ft., $1.15 each; 4 to 5 ft., $1.75 each; 5 to 6 ft., $2.75 each; 6 to 8 ft., $4.00 each.

SPINY JUNIPER. A tall grower of upright columnar habit and blue-green foliage. The growth is so slow that the tree is well adapted for foundation plantings and other situations requiring dwarf trees. 12 to 15 in., 50c each; 15 to 18 in., 75c each; 18 to 24 in., $1.10 each; 2 to 4 ft., 50c each.

WICHITA JUNIPER. Broadly conical form and beautiful blue-green foliage make it one of the choicest evergreens. 2 to 3 ft., $1.00 each; 3 to 4 ft., $2.25 each.

VIRGINIA BLUE JUNIPER. Broadly conical form and beautiful blue-green foliage make it one of the choicest evergreens. 2 to 3 ft., $1.00 each; 3 to 4 ft., $2.25 each.

DWARF BOXWOOD

Buxus sempervirens

4 to 6 in. $0.25 $0.30 $0.40
6 to 8 in. $0.35 $0.35 $0.40
8 to 12 in. $0.45 $0.35 $0.40
12 to 15 in. $0.55 $0.55 $0.50
15 to 18 in. $0.75 $0.75 $0.65
18 to 24 in. $1.00 $0.85 $0.75
24 to 30 in. $1.75 $1.50 $1.40

Dwarf English Boxwood

(Buxus sempervirens suffruticosus)

A widely known and popular form of dwarf boxwood. It has small, deep green, dense leaves which hold their bright color throughout the winter months. Suitable for very low hedges and edgings. Can be trimmed in various forms.

4 to 6 in. $0.25 $0.25 $0.20
6 to 8 in. $0.35 $0.35 $0.30
8 to 12 in. $0.50 $0.50 $0.45
12 to 15 in. $0.75 $0.75 $0.70
15 to 18 in. $1.00 $1.00 $0.90
18 to 24 in. $1.25 $1.25 $1.15
24 to 30 in. $1.50 $1.50 $1.40

AZALEAS

AZALEA HINODEGIRI. Deep carmine blooms, evergreen foliage. The most desirable kind. Spreading dwarf type grows; 6 to 8 in., 40c each; 8 to 10 in., 60c each; 10 to 12 in., $1.00 each.

AZALEA AMOENA. Rose-purple flowers, blooms in early spring and retains its foliage all year. 6 to 8 in., 50c each; 8 to 10 in., 60c each; 10 to 12 in., 75c each; 12 to 15 in., $1.25 each; 15 to 18 in., $1.75 each.

AZALEA MACRANTHA. Large, single, salmon-red flowers, late blooming. 6 to 8 in., 60c each; 8 to 10 in., 75c each; 10 to 12 in., 90c each.

BUSH ARSUTUS (Abelia grandiflora). Dark glossy green leaves, pink tinged tubular shaped flowers from June until frost. Very popular. 1 to 1 1/2 ft., 45c each; 1 1/2 to 2 ft., 55c each.
Harrisons' Shade-Flowering Trees
Think of the Future—Plant Your Trees Now

SWEET GUM (Liquidambar styraciflua). A large, stately tree with beautiful scarlet autumn foliage. Leaves are large and heart-shaped; in autumn they change to a brilliant shade of crimson or scarlet.

BABY WEEPING WILLOW (Salix babylonica). A top-knotting, weeping tree. Ornaments any moist soil. The baby willow is especially suitable for small flower gardens and balconies.

GOLDEN BARK WEEPING WILLOW. Similar in habit and leaf form to the Baby Willow. Willow exempt the rake in hot, sunny color much as shown in the winter months.

Oriental Plane

ORIENTAL PLANE (Platanus orientalis). A rapid, upright, clean-growing tree. Leaves, when fresh, resemble those of the Eastern Plane. 80c each. 2 to 4 ft. 1.25 each. 4 to 5 ft. 2.00 each.

AMERICAN PLANE OR SYCAMORE (Platanus occidentalis). A very rapid, long-rooting tree for yard or street planting. The bark is grayish-green and peels off during the winter. Not as desirable as the Oriental Plane but is a much more rapid grower.

Attention

RESIDENTS OF DEL-MAR-VA PENINSULA
WE HAVE A COMPLETE LANDSCAPE DEPARTMENT AND ARE EQUIPPED TO DO PLANTINGS ON THE DEL-MAR-VA PENINSULA. WRITE OR COME TO BERLIN FOR FURTHER INFORMATION.

PINK OR BLUE HYDRANGEA. Color depends on acidity of soil. 2 yr. field grown, 50c each.

We can furnish in many items large specimen plants not quoted herein. Cities, towns and large estates should submit “want lists” for quotations.

Our Liberal Guarantee

Our nursery stock is guaranteed to reach the customer in good condition. Accept shipment on arrival, examine and count stock and notify us at once should there be any error and the same will be promptly corrected. Also notify the transportation company should stock appear to have been damaged in transit. We do not guarantee continued growth. A tree, shrub, or plant is a living organism—depends on proper culture, feeding and is liable to attacks of disease and insects after being transplanted to the customer’s grounds. Our selling prices are very low and we cannot guarantee growth or be responsible for the nursery stock after delivery to our customers in good condition.

Non-Warranty

In the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree, on proper proof or such untruthes to name to replace the original order or to refund the purchase price. Except for such liability and in respect to all nursery stock sold by us, we give no warranty, expressed or implied, as to description, quality, productiveness or any other matter.
